ICMR INDIAN COUNCIL OF MEDICAL RESEARCH | NINE NATIONAL INSTITUTE OF NCD EPIDEMIOLOGY

CALL FOR PAPERS

JOINT IJSO–ICMR–NINE SPECIAL ISSUE

CANCER EPIDEMIOLOGY IN INDIA

From Data to Clinical Practice and Public Health

The Indian Journal of Surgical Oncology (IJSO) and ICMR-National Institute of NCD Epidemiology (ICMR-NINE) invite original research and reviews advancing cancer prevention, diagnosis, treatment, and public Health in India.

SUGGESTED THEMES

- Cancer incidence, mortality, survival, and trends
- Geographical disparities in cancer burden and care
- Diagnostic delays, stage at diagnosis, and treatment patterns
- Cancer outcomes, survivorship, and quality of care
- Cancer care continuum, access to care, care pathways and delays
- Risk factors, prevention, screening, and early detection
- Cancer registry methods, data quality, and linkage
- Evidence for clinical practice and cancer-control

ARTICLE CATEGORIES

Original Research

Systematic Reviews

Contributions are welcome from cancer registries, clinicians, epidemiologists, and public-health researchers. Multicentre studies and research integrating cancer registry data with other real-world data sources to generate actionable evidence are particularly encouraged

GUEST EDITORS

Dr Prashant Mathur
Director,
ICMR-NINE

Dr Jayasankar S
Scientist C,
ICMR-NINE

SUBMISSION DEADLINE

31st MARCH 2027

SUBMISSION DETAILS

- Refer to the **IJSO Instructions for Authors** for submission requirements.
- Mention **"Cancer Epidemiology Special Issue—August 2027"** in your covering letter.

INDIAN DATA. COLLABORATIVE RESEARCH. BETTER CANCER EVIDENCE.
